

The Polytech Advantage

PolyTech Garden doors offer you a European design that has proven itself for over 35 yrs. We have been manufacturing Doors at our Baddeck, NS. Factory since 1988.

European -designed Tilt and Turn technology has been used for many decades—offering a sophisticated and versatile options for any Residential application.

Some Key Features for the European Garden doors:

Multi-locking hardware enables dual functionality, while maintaining security and easy access

Doors are assembled with Vinyl Profile And steel reinforcement -to ensure durability, thermal performance and energy efficiency against severe weather conditions

Dual Weatherstripping-mult locking minimizing air, water and noise infiltration.
